

DOUBLE-WALL STEERING COLUMN HOLE COVER

Our Double-Wall Steering Column Hole Cover forms a barrier against water, dust and noise. It is made from plastics, elastomers and silicone (designed and manufactured by our experts) that reduces its weight. It is easy to fit, just clip it into place.

- Products Family: **Grommet and Hole Cover**

TECHNICAL FEATURES

- A multi-compound sealing ring links a dual-compound inner cover to a silicone or rubber outer bellow.
- The double-wall system offers exceptional acoustic insulation.
- Acoustic insulation: -30 to -40 dB between 100 and 1,000Hz.

BENEFITS

- Lightweight
- Comfort

MARKET AND EXPERTISE

AUTOMOTIVE & TRUCKS

ALL PRODUCTS FAMILIES

All Products Families for Automotive Precision Sealing Systems

Shaft Seals

They ensure the perfect sealing on rotating, or translating shafts under a large range of temperature. Our Dynamic Seals maintain lubricants in engines and transmissions while avoiding any foreign particles or fluid pollution.

Bearing Seals

Our Bearing Seals guarantee the sealing for wheel, clutch, belt-tensioner or suspension bearings. Compounds, friction surfaces and lubricants are chosen

and designed for lowering the energy consumption.

Bonded Pistons

They transfer very rapidly hydraulic pressure to rotate or translate mechanical elements like clutches. Our compact design, associating homemade compounds and metallic or plastic inserts, offers a power efficient solution.

Magnet rings

Thanks to the magnet pattern printed in an elastomeric or plastic compound, our Encoders can accurately provide position, direction and speed of a rotating shaft. You find it operating in engines, transmissions and ABS systems.

Precision Static Seals

Braking, fuel, oil, air, water systems are operational if they do not leak. Their reliability results from our Precision Static Seals, made of approved materials, tailor made designs and mastered processes.

O-Rings

Our O-Rings ensure perfect static and dynamic seals between two parts assembled radially (shafts) or axially (covers). Our O-Rings can withstand the most extreme temperatures and fit in the smallest spaces.

Grommets and Hole Covers

Our Grommets and Hole Covers let only a wire harness or the steering column pass through the wall. No dust, no water, damped sounds and controlled heat flows are its goals. Thanks to our designs and proprietary materials.

Bonded and Overmolded Seals

We provide highly effective static sealing solutions with maximum resistance to very high pressure and temperature such as: Access Panels, Flange Seals, Interface Seals, DT Seals.
